Despite the fact that Mr. Bryan told his audience last night that "the gold standard has been weighed in the balance and found wanting," the financial community and the business community in general do not hesitate to reaffirm their allegiance to that standard. Wall Street read Mr. Bryan's speech this morning, and stocks advanced. Wall Street was pleasantly disappointed in Mr. Bryan's free-silver argument, the universal and impartial opinion being that it was weak. so terribly weak that even "Coin" Harvey might be called strong in argument by comparison. After Wall Street had read all of Bryan's words it resumed its customary operations, feeling more sure of the defeat of Mr. Bryan and more convinced than ever that Popocratic orators will not persuade the American people to plunge their

the Chicago, Burlington and Quincy directors further demoralization took place among the shorts.

The Burlington Company in 1894 had a deficit of \$1,030,471, after paying all charges, and a 4% per cent dividend on the common stock. In 1895 there was a deficit for the year of \$232, 362, and for the first six months of this year recent reports of earnings show a deficit of \$1,923,004, which with the dividend just declared will bring the deficit up to \$2,743,046, or since 1893, a deficit of \$4,005,879. The wisdom of the Burlington's policy in paying unearned dividends is not apparent. Sugar Refining was active at a net gain of 3% per cent, and the rest of the Industrial list developed corresponding strength, United States Leather preferred, Chicago Gas and American Tobacco all closing at substantial net advances. The railway list was up 162 per cent, and in some cases larger gains were made, as in Burlington, which \$19\frac{1}{2}\$, Eric for other sources \$10,382 \ 2,006 \ 10,382 \ 2,006 \ 10,382 \ 2,006 \ 10,382 \ 2,006 \ 10,382 \ 2,006 \ 10,382 \ 2,006 \ 10,382 \ 2,006 \ 10,382 \ 2,006 \ 10,382 \ 2,006 \ 10,382 \ 2,006 \ 10,382 \ 2,006 \ 10,382 \ 2,006 \ 10,382 \ 2,006 \ 10,382 \ 10,382 \ 10,382 \ 10,382 \ 10,382 \ 10,382 \ 10,382 \ 10,383 \ 10,
